

Pengantar Arsitektur

Week-3

<https://id.pinterest.com/pin/460141286910090002/>

- Architecture is something many people take for granted, moving through it and using it without a second thought.
- Architecture is the crystallization of ideas:
 - As shelter in the form of art
 - A blossoming in stone
 - Flowering geometry
 - Frozen music
 - Human triumph over gravitation and the will to power
 - The will of an epoch translated into space
 - The magnificent play of forms in light
 - A cultural instrument
 - Inhabited sculpture
